Guiding Principles | Refer before nominating

01

Sense of Pride

- Recognizing those who have made an impact
- Who made a difference to the business/organisation
- Awarded to exceptional few, not to be a mass give-away

04

Review Process:

- Nomination does not guarantee the award
- CEO/MD along with Gr. CHRO will have the final review and decision

02

Nomination guidelines

- Refer the Impact areas; identify the most applicable one
- Dept. Head to state what business impact it has made
- Include numbers and qualitative aspects in your note; avoid phrases like well done/good job
- It must be measurable and exemplary

05

Your Support:

- Dept. Heads to nominate for exemplary contribution
- Matured outlook and detailed explanation of impact solicited from Dept. Heads

03

What it is not

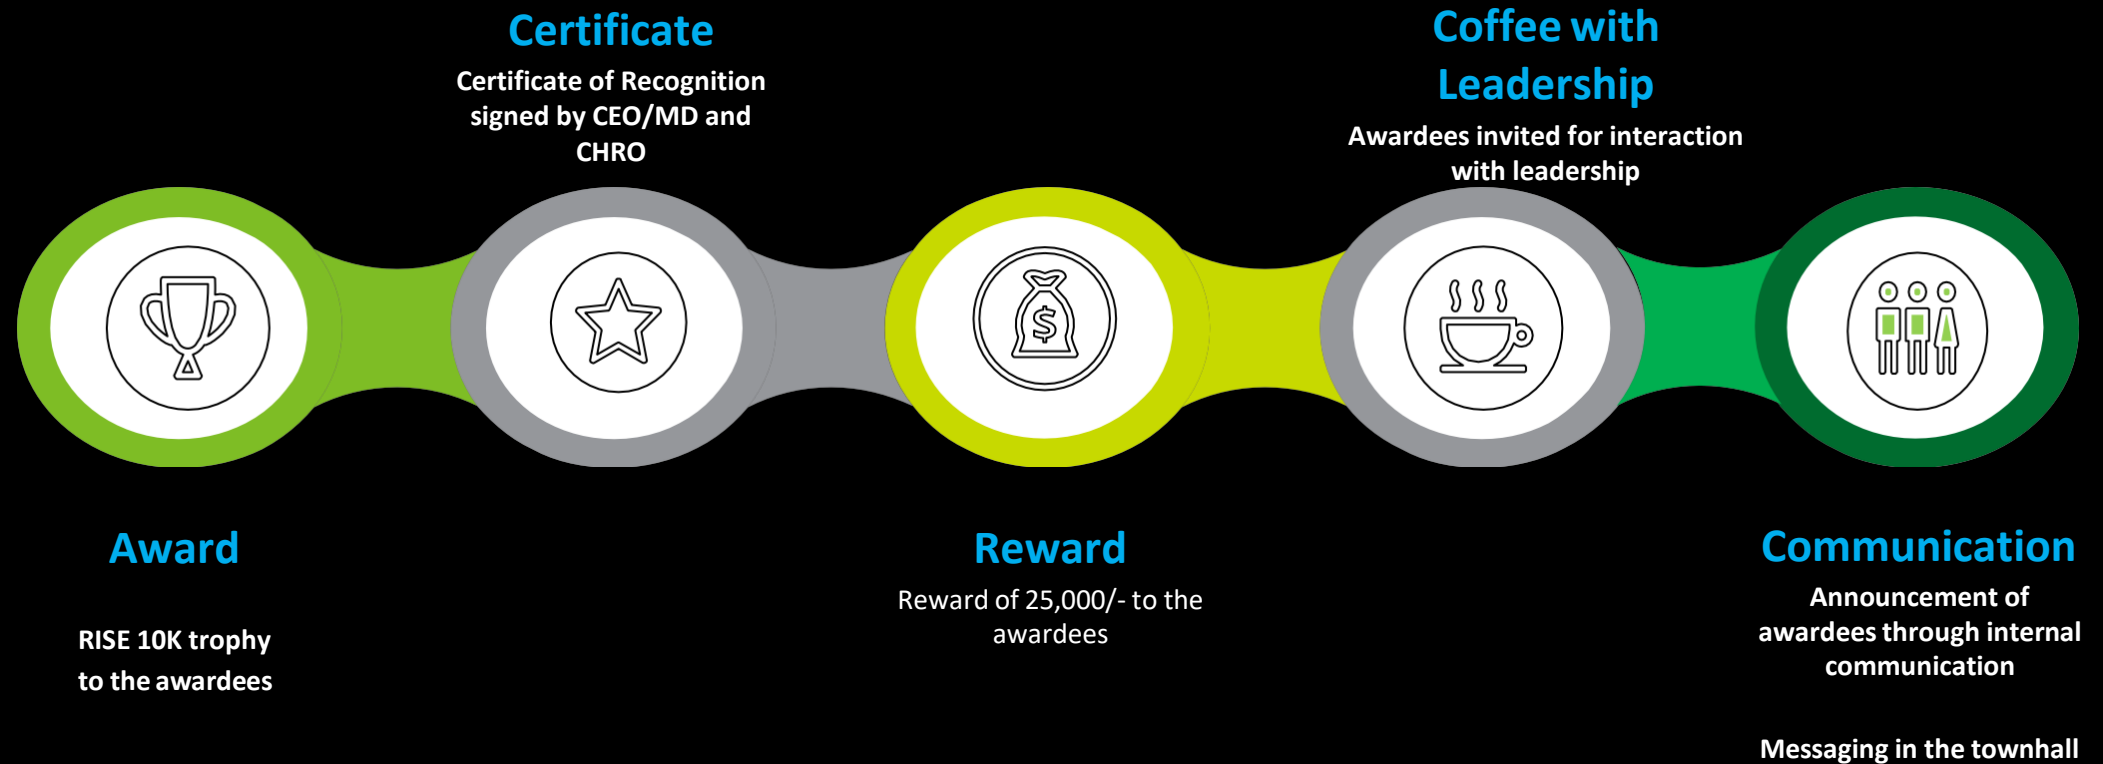

- Recognition is NOT for doing their core/expected work
- It is not based on 'quota' system.
- All Depts. Not expected to have recommendation based on above criterias

06

Sanity of the process:

- Kindly maintain confidentiality till further communication
- Kindly do not inform the nominee or others till the nomination is approved for recognition
- Avoid passing the blame if nomination not selected
